Desertions from Democratic Ranks.

PITTSBURG, Pa., July 27.—Major Klinedest, of McKeesport, has declined the Democratic nomination for Congress in the Twenty-fourth District. He says he cannot support free trade, and predicts the defeat of every man who does. He will vote for Harrison. Ex-Judge Burton, of Monongahela City, has flopped to the Republicans on the same ground. Twenty-two Democrats at Beverly, W. Va., have come out for Harrison and protection. Mayor Samuel Murray, of New Cumberland, same State, deserted Grover today. In addition to these, several important conversions are reported in Ohio. Harrison's majority in Pennsylvania will not fall short of 100,000.

WASHINGTON LETTER.

(From irregular correspondent.)  
 WASHINGTON, July 28, 1888.

Senator H. Stock has introduced a bill providing for the pensioning of all persons who served three months in the army or navy of the United States during the rebellion.

A caucus of Republican Senators was held at the residence of Senator Evans Wednesday evening, at which it was definitely settled that a substitute for the Mills bill should be reported to the Senate thoroughly discussed and pushed to a vote before adjournment. It is understood that the measure is now nearly ready to be reported. The bill, it is expected will touch the customs very lightly, with the exception of sugar, which will be heavily cut. The internal revenue is expected to finish the most of the reduction. The bill will probably be reported in two weeks.

Under the provisions of the bill passed by the Senate for the relief of depositors of the late Freedman's Bank, only the colored depositors will be paid. Senator Sherman has reported favorably from the finance committee.

Senator Spooner's amendment to the Sundry Civil Appropriation bill providing for the refunding of the direct tax paid by the several States and territories under the act of August 5, 1861. This amendment is substantially the same as the bill which, after its passage by the Senate, caused the recent prolonged deadlock in the House, whereby the Southern Democrats succeeded in preventing the House from passing a bill that was favored by more than three-fourths of its members. This amendment is certain to pass before the Senate, but whether the Southern brigadiers of the House will again fill-buster against it cannot be said at present, although it is safe to assume that they will, so that another deadlock may be considered as among the probabilities of the near future.

Senator Ingalls is expected to make a speech in a few days on the fisheries treaty, which he will review the entire foreign policy of this administration, and show what a mammoth fraud it has been from the beginning. That Mr. Ingalls will handle the subject without gloves it is unnecessary to say.

Brigadier Cockrell, of Missouri, had quite a spat with Senator Davis Chairman of the Senate Committee on pensions, Tuesday. Cockrell attempted to defend Cleveland's veto of Mrs. Doherty's pension bill. Thereupon Mr. Davis proved that every statement upon which the veto was based was false.

Senator Davis has reported favorably to the Senate, from the pension committee, a bill providing that the fees of examining surgeons for each examination of applicants for pensions shall be \$2 for each surgeon when made by a board of surgeons and \$2 when made by a single surgeon. Traveling expenses shall also be allowed when by reason of the claimant's disability the examination has to be made at claimant's residence.

Senator Cameron has presented a large number of petitions from various soldier organizations in Penn. asking for the passage of the arrears of pensions act and of the act to increase pensions of fully disabled veterans.

The Republican Congressional committee of which Representative Nathan P. Goff of W. Va., is chairman, and the veteran, Hon. Ed. McFarson, of Penn., is secretary, have opened their headquarters here for the campaign.

This committee will prepare all the campaign documents for the national committee.

Cleveland sent a message to Congress along with the annual report of the civil service commission. The message is looked upon here as a joke, inasmuch as all reform in the civil service has been abandoned.

The majority report of the Senate committee, which investigated the Jackson, Miss., election riots has been submitted. The report finds the charges as true and recommends that six of the federal officials who took part in the riot, or belonged to the white league, should be dismissed. R.

THE CIRCUS.

A Split Between Forepaugh and Frost.

Yesterday there was a regular monkey and parrot time in the circus. It was a row between the Forepaugh faction and the Frost and Sweeney side of the tent.

Forepaugh vowed he would take the elephant away, and got it as far as Polson's hay yard, along with the white camel and big baboon.

Mr. Frost, however, gave orders to the elephant boy to take it out. Jim Rayercraft was acting as temporary keeper when the boy came down. He said he couldn't take it out, but when the boy gave the word to the intelligent beast she pulled her chain up and started. Rayercraft closed the doors, but the animal, obedient to the word of command, lifted the whole side of the stable out and walked through. Rayercraft climbed out over the shed roof and gave the beast the right of way.

Old Forepaugh hove in sight at this juncture and at his word of command the elephant returned to its quarters and refused to budge. Frost say Sweeney will institute legal proceedings today to recover him, and there is prospect of lively times ahead.

The show was given minus the menagerie to a full house.

At a late hour last night the show people were fixing up a dissolution. The APPEAL understands that Forepaugh leaves along with the tight-rope woman and his two daughters, and that the Frost and Sweeney management have telegraphed to San Francisco for new talent, and will take the show over into California by way of the Lake, playing at Genoa and the Lake next week.

**Holstein Frisian.**  
 The San Francisco Bulletin of Wednesday says:

Popular favor is now concentrated on the Holstein or Frisian cattle which have so long supplied the famous cheese dairies of Holland. There are now several hundred head of these cattle in California. A part of these has been imported direct from Holland, and others have been bought at second hand. But nearly all the older cattle are imported stock. The demand recently has been good. The increase is rapid. In a few years this Frisian stock will be pretty well mingled with other stock in this State, just as was the case with the Durhams so largely imported a few years ago, the half-breeds or graded cattle being now numerous in nearly all parts of the State. The Holsteins are large, quiet, good tempered animals—qualities which also belong to the Durhams—while the large proportion of extraordinary milkers has done much to bring them into favor. These blue-black cattle, flecked with white, will soon be seen in all the valleys of California.

**The Only Perfect Remedy**  
 For habitual constipation, dyspepsia, and kindred ills, is the famous California liquid fruit remedy, Syrup of Figs. It strengthens as well as cleanses the system, it is easily taken, and perfectly harmless. For sale by Geo. C. Thaxter agent.
